SUMMARY

Mathematical Biology graduate at UC San Diego with research experience in computational biology, microbiology, and mathematical modeling. Interested in applying quantitative methods, statistics, and programming to solve biological and biomedical research problems.

WORKING EXPERIENCE

Math Instructor at Mathanasium Walnut

Aug 2026 - Present

- Mentored approximately 20 K-12 students during six-hour instructional shifts.
- Responsibilities include answering any math questions at grade level K-12, grading, proctoring, and most importantly making early math concepts accessible.

Student Researcher at Azusa Pacific University

June 2024 - Sep 2024

- Co-developed a community science breeding program for climate-adapted pepper varieties in Southern California.
- Recruited local schools and community gardeners to participate in citizen-science activities.
- Developed Monte Carlo simulations to estimate cross-pollination rates and pollen movement under multiple garden configurations.

Math Instructor at Mathanasium Glendora

Mar 2023 - May 2023

EDUCATION

Experiential Learning at Pathways to STEM

Jan 2024 - Sep 2024

- Oak Crest Institute of Science in Monrovia, CA: Completed human subjects research training and conducted research under an IRB-approved protocol. Designed and performed microbiology experiments as a team investigating recovery of oral microbiome following different mouthwash protocols. Performed serial dilutions, bacterial culture, laboratory quality control, and statistical data analysis. Presented experimental findings as part of a collaborative student research project.
- USC Wrigley Campus on Catalina Island, CA: Sampled ocean water using Niskin bottles and used a light spectrometer to test for phosphate levels at various depths.
Skills used: Experiment design, serial dilutions, reagent preparation, colorimetry, data analysis.
- Potash Hill Campus at Marlboro, VT: Wrote and delivered a policy brief on land conservation at the Marlboro town hall.
Skills used: Literature review, data analysis, public speaking.
